

# Amateur Radio Emergency Service® Region 1 District 1

## Next Steps:

### Check In to Our Net:

We meet every Thursday night on the 447.275 MHz Repeater, Negative Offset with a 100 Hz tone. Membership is not required, so join us any time and indicate if you have questions on check in!

### Download our Channel Utilization:

Our channel utilization contains a list of frequencies that members should program into their radios: it is available at <https://COAresR1D1.org> in the Forms & Docs section. Download and print out a copy today!

### Complete Registration:

Don't worry if your information will be changing: everything can be updated later, but a submitted registration form gets you in our system and on our email distribution list! Please download a copy at our website, in the Join R1D1 section. When complete, scan and email it to: [admin@COAresR1D1.org](mailto:admin@COAresR1D1.org)

### Complete Online ICS Training:

To be deployable to a served agency, you'll need to complete several free, online courses on the Incident Command System, the National Incident Management System and the National Response Framework. Links are available on our website in the Training section.

### Complete Background Check:

To be deployable to a served agency, you'll need to complete a background check and provide us the results. We're not looking for saints, but we have to comply with restrictions on where we can send our members. We accept a Colorado Bureau of Investigation (CBI) report from <https://www.cbirecordscheck.com>, and will consider other forms of proof on a case-by-case basis. Alternative methods must be equal to, or more rigorous than a CBI check, such as a Larimer or Weld CHP. Email your report to: [admin@coloradoaresr3d2.org](mailto:admin@coloradoaresr3d2.org)

### Read and Understand the ECom Training:

Download and read the training material by Pat Lambert, W0IPL, available on our website in the Training section. The embedded tests are no longer required.

### Update Your Profile:

Once we have entered your registration, you'll be able to sign in to our website at <https://COAresR1D1.org> and update your profile. Keep us in the loop as things change!

### Join Us at an Event:

Even if you're still working on your ICS and background check, feel free to volunteer for any of our public service events, field day, remote net control sessions and socials! They make for great practice, and we'd like to get to know you better.

**Thanks again! We'll see you in the field.**
